PROFESSIONAL SUMMARY

MCA student and aspiring software engineer with a foundation in web development, programming, databases, and machine learning. Experienced in building responsive web projects using HTML, CSS, JavaScript and Python, with an interest in creating clean, user-friendly digital experiences. Seeking internship opportunities to apply technical skills, learn from industry teams, and contribute to real-world software projects.

TECHNICAL SKILLS

Programming	Python, Java, C++
Web	HTML, CSS, JavaScript, Responsive Web Design
Database & CS	SQL, DBMS, Networking, Machine Learning
Tools	Git, GitHub, VS Code, MS Word, Excel, PowerPoint

PROJECTS

Karwar Travels — Tour & Travel Agency

- Developed a tours and travels website to promote unexplored destinations. Implemented a user-friendly interface with login functionality using HTML, CSS, JavaScript and Python, with XAMPP-backed data handling for user information and saved travel preferences.

DriveAura Pro — Car Rental Management System

- Developed a modern car-rental interface featuring car listings, rental details, availability information, search/filter functionality, and responsive user-focused design.

Event Booking Platform

- Built a responsive event-booking website focused on clear navigation, event discovery, structured information, and an intuitive booking-oriented user experience.

Wooden Street Cafe

- Created a responsive cafe website with a clean visual interface, structured content sections, navigation, and mobile-friendly presentation.
